

Tradition from Germany since 1927

Our more than 95-year company history has shaped us and made us what we stand for today.

1927

Foundation of Koller + Schwemmer. Willi Koller, along with a partner, takes over the Bosch Service Nuremberg. From the very beginning, the focus has been on automotive electrics, accessories, as well as carburetor, diesel, and gasoline injection technology.

1966

Opening of what was then the largest and most modern Bosch Service in the Federal Republic of Germany.

1970

Expansion of the core business to include injection pumps at original equipment manufacturer (OEM) level.

1985

The two companies Koller and Schwemmer merge into Koller + Schwemmer and concentrate on mechanical fuel injection system as well as Bosch Service for household appliances, power tools, and mobile communications.

2012

Robert Bosch GmbH operates Koller + Schwemmer as a wholly-owned subsidiary.

2020

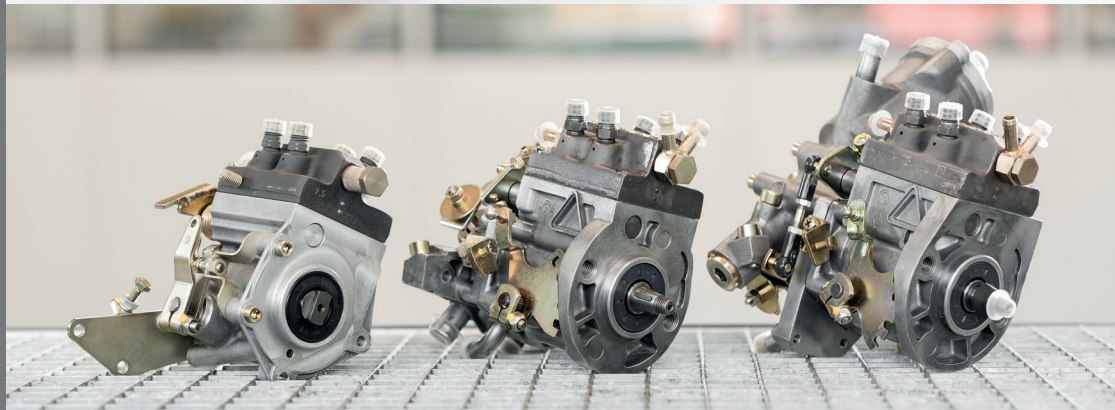

Start of UIP production.

2025

Launch of CV starters and renovation of the company building.

Kugelfischer

For the maintenance and repair of the pumps, we use newly manufactured space cams. We have the original Master cams.

We offer injection valves (e.g. for Mercedes 300SL / W 198), for repair, in exchange or new.

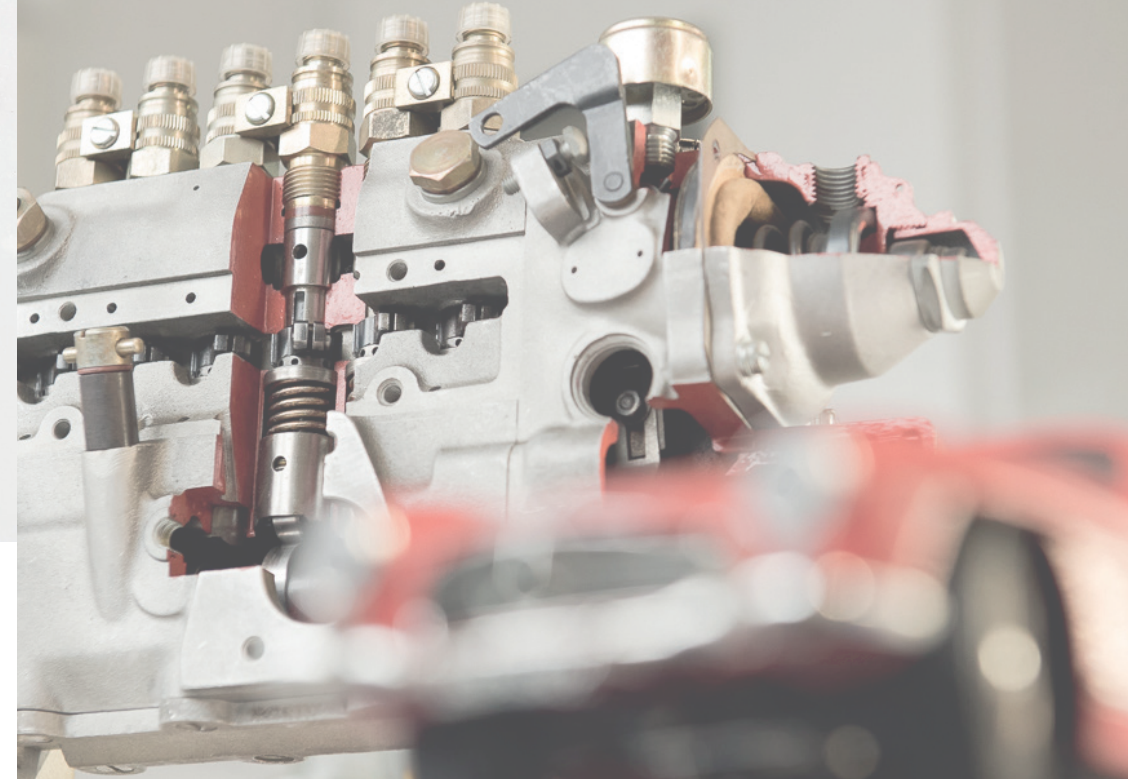

WE CAN DO EVEN MORE!

Please contact us for further information on mechanical injection components. Mr Strehl will be happy to advise you.

SCHWEMMER

Your competent partner for
MECHANICAL FUEL INJECTION PUMPS
of the brands Bosch and Kugelfischer

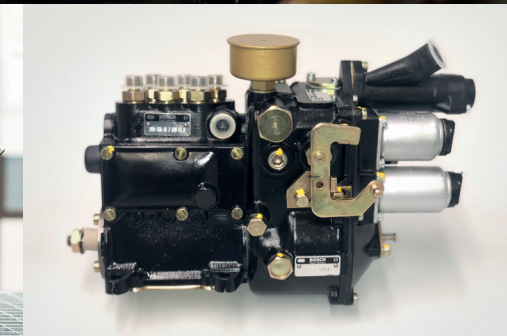

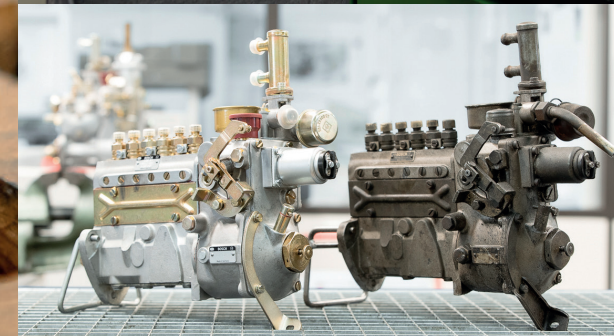

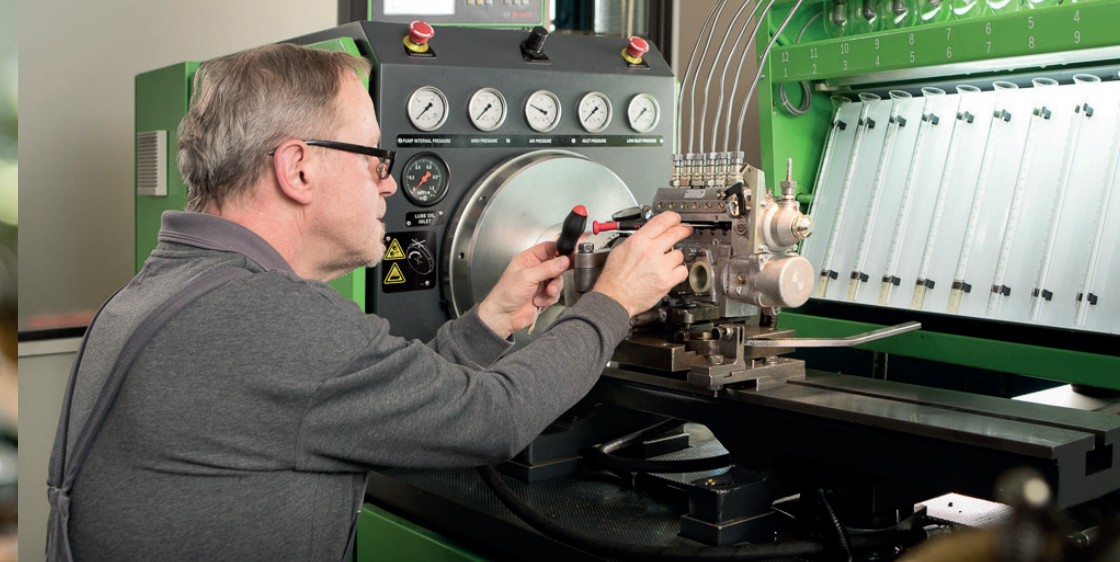

For repairs and replacement units, we only use components that are remanufactured according to original documentation.

Since 1986, we have been supplying our customers' historic vehicles worldwide with mechanical injection pumps for:

MERCEDES | PORSCHE | BMW | FORD | LANCIA | PEUGEOT

Adjustment and testing are carried out according to original documents and test values. All components are adjusted and 100% tested before delivery.

For all early generations of Bosch Jetronic systems (D-, K-, and KE-Jetronic), we offer manufacturer-specific 1:1 remanufacturing to original specifications (1:1 REMAN).
