## **D-Jetronic Gasoline Injection System**

## **D-Jetronic system overview**

## Configuration of a D-Jetronic with air-cooled engines

- 1 Fuel tank
- 2 Electric fuel pump
- 3 Fuel filter
- 4 Fuel-pressure regulator
- 5 Fuel injector
- 6 Intake manifold
- 7 Cold-start valve 8 Air-temperature sensor
- 9 Manifold pressure sensor
- 10 Throttle valve with throttle-valve switch
- 11 Auxiliary-air device (optional with

- 12 Thermo-time switch
- 13 Coolant temperature sensor

- p, Intake manifold pressure
- p<sub>2</sub> Atmospheric pressure
